

# Pressure Calibration Testpumps

*pneumatic - hydraulic - vacuum/low/high pressure - portable/hand lever/spindle pump*

Leitenberger from Germany offers a high precision pressure calibration testpumps to generate pressure for vacuum, DP, low and high pressure:

- portable pneumatic or hydraulic handpumps
- hand lever comparison pumps - benchtop type
- hydraulic spindle comparison pumps for high pressure

## Portable Testpumps

		
pneumatic low pressure & vacuum	pneumatic 60 or 100 bar & vacuum	hydraulic 700 or 1000 bar & vacuum

## Hand Lever Pressure Comparison Testpumps

	
pneumatic benchtop type up to 60 bar - switchable to vacuum -0.95 bar	pneumatic benchtop type up to 100bar switchable to vacuum -0.95 bar

## Spindle Pump Work Bench Comparator

		
hydraulic - mineral oil or water 1000/1200/1600 bar	hydraulic - special oil - rigid table housing - 4000/7000 bar	hydraulic - water for oxygen appl. 400/800 bar
