

# Battery Powered Flow Indicator

*battery or loop-powered* - flow rate, total, dual total display, alarm function

Featuring 5 digits of rate (or resettable total) and 8 digits of the grand total, the BAT battery or loop-powered indicator from KEP is capable of accepting magnetic pickup, DC pulse, and switch closure inputs from pulse-producing flowmeters.

Panel mounting, NEMA4X, explosion-proof, stainless steel housing options.

## Features:

- Battery, DC, or Loop Powered
- DC Pulse Inputs
- Magnetic Pickup Inputs
- Contact Closure Inputs
- Dual Line LCD (rate/total, dual total)
- Scaled Pulse Output
- 4-20mA Output, Linearization, Data Logger opt.
- RS-485 Communication with Modbus RTU Protocol

## Options:

- Ratemaker/Totalizer: displays rate & total simultaneously
- Dual Totalizer: displays 5-digit resettable total, 8-digit grand total
- Ratemaker/Totalizer & Alarm: display rate & total with isolated transistor alarm output
